# **Our Mission**

**Feb 2017**

## **Our Mission**

The West Yorkshire Archive Service exists to preserve the past, serve the present and protect the future. We do this by collecting and looking after the unique documentary heritage of the region and by helping members of the public use and enjoy these records.

**Preserving the past, serving the present, protecting the future**

## **Our Vision**

To provide a welcoming and engaging service that will inspire people to use the archives of West Yorkshire, enabling them to celebrate their identity and understand their past, present and future.
